EH_2018_services.jpg

Services are becoming an increasingly significant aspect of the Endress+Hauser business. Calibration services especially are in high demand.

EH_2018_digitalization.jpg

Industrial Internet of Things applications are entering the area of process engineering. Endress+Hauser launched its first digital service for the automated analysis and management of an installed base: the Endress+Hauser Analytics App.

EH_2018_trustsens.jpg

Endress+Hauser launched 57 new products last year, including the iTHERM TrustSens self-calibrating thermometer, which received the Hermes Award, one of Germany's foremost innovation honors.

EH_2018_innovators.jpg

Endress+Hauser filed 261 patents around the world in 2017. The Group honors its innovators at the annual Innovators' Meeting.

EH_2018_blue_ocean_nova.jpg

Endress+Hauser continuously strengthens its portfolio for measurement and analysis of quality parameters. Latest technology from Blue Ocean Nova allows customers to integrate spectrometers directly into production processes.

EH_2018_analytik_jena.jpg

Endress+Hauser often runs into the same customers in both the laboratory and process businesses. The Group, including Analytik Jena, a manufacturer of analytical instruments and bioanalytical systems, supports these customers from lab to process, from research to product and process development, and on to production.

EH_2018_suzhou.jpg

Endress+Hauser opened its third plant in Suzhou, China. It includes one of the world's largest, most modern flow calibration facilities. The center can perform traceable calibration on electromagnetic flowmeters with a nominal diameter of up to 3,000 millimeters.

EH_2018_belgium.jpg

More room, less energy. The new Belgium sales center building underscores the importance of a sustainability mindset at Endress+Hauser.
